

At Coatham Primary School our Early Years provision lays the foundation for a lifelong love of learning. We create a nurturing and inspiring environment where every child feels valued, confident and ready to explore the world around them.

We believe that young children learn best through play. Our carefully planned, play-based curriculum encourages curiosity, creativity and independence, allowing children to develop key skills in a natural, meaningful way. Through a balance of child-initiated activities and adult guided experiences, we support each child's unique interests while building strong foundations in communication, literacy, mathematics and social development.

Our indoor and outdoor learning spaces are designed to spark imagination and discovery, giving children opportunities to investigate, collaborate and problem-solve every day. We place a strong emphasis on developing positive relationships, ensuring that children feel safe, happy and ready to learn.

Our dedicated team offer a nurturing approach using high-quality interactions to allow every child to reach their full potential through expressing ideas, imagining, having fun and oodles of laughter.

We value the contribution each family brings to our school community and teach our children to respect and value differences by sharing and celebrating diversity.

We understand that books and storytelling experiences provide children with opportunities to develop listening, attention, imagination, language and creativity. We have carefully designed our topics, in line with school, around a range of quality reading texts, both fiction and non-fiction to scaffold learning.

We pride ourselves on ensuring that every child, regardless of their starting point, receive the best support possible to make progress. Children are encouraged to see themselves as capable, independent and valued for their effort.
